

BOHRN TO ACHIEVE Childcare & Preschool

How to view cameras from iPhone/iPod Touch devices

1. Download GV-iView from the App Store, and after installing the application, the GV-iView icon will appear on the desktop.

GV-iView V2.3.2 for iPhone and iPod Touch

OS supported: iPhone with iOS 4.3.3 to 7.0.2
iPod Touch with iOS 4.3.3 to 7.0.2
iPad with iOS 4.3.3 to 7.0.2

<https://itunes.apple.com/app/gv-iView/id314532692?mt=8>

2. Tap the GV-iView icon on the main screen and tap the NVR/DVR View tab. This page appears:

3. Enter "BTA" for the Favorite Name, "67.42.166.205" for the IP, and "8866" for the Port as shown in the image above. Contact BTA for the current User ID and Password.
4. Tap the "Add" button  to save the connection information.
5. Tap the "Connect" button  to connect to the cameras.
6. Double-tap any of the small camera images to zoom in.
